*A Software Engineer with 6 years of experience, specializing in the architectural design and development of end-to-end applications. My primary programming languages are Go and TypeScript, but also eager to explore new languages, tools, and techniques to further enhance my knowledge and skillset.*

---

## Skills

**Experienced:** Go, TypeScript, Java, Python, SQL, React, Next.js, Vue, Nuxt, MySQL, MongoDB, YottaDB, Redis, GraphQL, gRPC, Kafka, RabbitMQ, Apache Airflow, Docker, Git, GitHub Actions, Shell

**Familiar:** Node.js, Express.js, Elasticsearch, NGINX, BMC Control-M, AWS (EC2, S3, DynamoDB, Lambda), GCP (GCE, GCR), K8s, Kotlin

**AI & Tools:** Cursor AI, Model Context Protocol (MCP), Context Engineering

## Experiences

### LINE MAN Wongnai

Senior Software Engineer

Bangkok, TH · Hybrid

Oct 2024 – Present

*Promoted to Senior Software Engineer · Feb 2026*

- Key contributor in launching the new LINE MAN product from the ground up
- Took initiative in team setup, culture-building, and defining workflows for a newly formed team
- Facilitated discussions, shared updates, and improved processes through EM/PM collaboration
- Drove effective cross-team communication with other service owners
- Translated product features into actionable tasks, ensuring clarity and alignment within the team
- Proactively worked with PM to assess feasibility, communicate technical constraints, and align on solutions
- Delivered high-quality, on-time implementations with strong ownership from design to deployment

### LINE Company (Thailand)

Solution Engineer

Bangkok, TH · Hybrid

Jul 2022 – Aug 2024

- Developed new features for Social Commerce Platform (LINE Shopping, MyShop) to enhance user experience and drive engagement
- Collaborated with cross-functional teams to implement effective solutions for requirements breakdown, ensuring seamless integration
- Conducted demonstrations with the business team to showcase new features, leading to successful product launches
- Provided timely support for incidents, investigating issues to ensure customer satisfaction

## **KASIKORN Business-Technology Group (KBTG)**

**Nonthaburi, TH · Hybrid**

*Software Engineer*

*Jul 2020 – Jun 2022*

- Implemented Centralized Back Office financial application for KBank users with various features
- Designed databases and technical flows to meet business requirements with a focus on performance optimization
- Created Control-M specifications for system batch processes
- Developed and tested REST APIs for client web applications; utilized gRPC following SOLID and Clean Architecture principles
- Conducted code peer reviews to ensure accuracy of business logic and performed unit testing
- Improved the automated test pipeline to provide more readable and trackable logs for easier identification of failed tests
- Provided support to the test team and NFT team in identifying and resolving functional defects and performance issues
- Assisted the Technical Lead in deployment processes and incident resolution

## **True Corporation**

**Bangkok, TH**

*Full Stack Web Developer (Internship)*

*Jun 2019 – Aug 2019*

- Collaborated with the team lead to design the architecture diagram and POC for a billing inquiry system using the MVC pattern
- Developed an online customer billing website to enable customers to inquire about their invoices and receipts
- Implemented APIs to gather data from the company's existing billing data stored in relational databases
- Developed APIs to generate invoices and receipts as PDF files using the Jasper Report file format

## **Volunteering**

**LINE Company (Thailand) — Solution Engineer**

**May 2023 · 1 mo**

- Served as a host for Go training sessions for the LINE Rookie (Intern) program

**Chulalongkorn University — Teaching Staff**

**May 2017 · 1 mo**

- Taught Python programming to high school students

## **Education**

Bachelor of Engineering in Computer Engineering, Chulalongkorn University (2020), 3.09 GPA
